

School of Public Health, The University of Hong Kong

1.	CIDI Senior Research Assistant/Research Assistant I/II
Vacancies:	Several
Description:	Senior Research Assistant/Research Assistant I/II (several posts) in the School of Public Health (Ref.: 500603) (to commence as soon as possible on a one-year temporary basis or two-year fixed-term basis, with the possibility of renewal subject to satisfactory performance) Applicants should possess a Bachelor's or above in public health, social sciences, psychology, or related disciplines, with at least 3 years' work experience. They should have a good command of written and spoken English and Chinese (including Cantonese). They should be responsible, mature, organized, and attentive to details. Those with less experience may be appointed as Research Assistant I/II. The appointee will work on a large population-based cohort with over 46,000 participants in 20,000 households with a focus in The World Health Organization World Mental Health Composite International Diagnostic Interview (WHO WMH-CIDI) for the assessment of mental disorders. He/She will assist in field work, coordinate projects, recruit participants, prepare publications and reports, and perform general administrative duties and other duties as assigned. Enquiries about the duties of the post should be sent to cynthiau@hku.hk. Those who have responded to the previous advertisement (Ref.: 499881) need not re-apply. A highly competitive salary commensurate with qualifications and experience will be offered, in addition to annual leave and medical benefits. The appointment on fixed terms will attract a contract-end gratuity and University contribution to a retirement benefits scheme totalling up to 10% of basic salary. The University only accepts online application for the above post. Applicants should apply online and upload an up-to-date C.V. Review of applications will commence as soon as possible and continue until <u>September 30, 2020 (extended to December 31, 2020)</u>, whichever is earlier.

2.	Data analyst Senior Research Assistant/Research Assistant I/II
Vacancies:	Several
Description:	Senior Research Assistant/Research Assistant I/II (several posts) in the School of Public Health (Ref.: 500605) (to commence as soon as possible on a one-year temporary basis or two-year fixed-term basis, with the possibility of renewal subject to satisfactory performance) Applicants should possess a Bachelor's degree or above in statistics, biostatistics, or related disciplines, with at least 5 years' work experience. They should have a strong quantitative background, good communication and data visualization skills, the ability to present abstract concepts in an accessible way to all organizational levels, and the ability to acquire new statistical techniques by self-learning. They should be responsible, mature, attentive to details, and able to work independently and in collaboration with a multidisciplinary team. Knowledge of multilevel modelling, time series analysis, demographic methods, missing data analysis, and fundamental machine learning is essential. Experience in epidemiological data analysis of large datasets using R and/or STATA is highly preferred. Those with less experience may be considered as Research Assistant I/II. The appointees will work on a large population-based cohort with over 46,000 participants in 20,000 households and assist in the applied epidemiological and/or statistical research. They will conduct statistical analyses, generate tables and figures, draft method and result sections for publications and reports, manage internal and external data transfers, assist in data and computer security, and perform other duties as assigned. Enquiries about the duties of the posts should be sent to cynthiau@hku.hk. Those who have responded to the previous advertisement (Ref.: 499882) need not re-apply. A highly competitive salary commensurate with qualifications and experience will be offered, in addition to annual leave and medical benefits. The appointment on fixed terms will attract a contract-end gratuity and University contribution to a retirement benefits scheme totalling up to 10% of basic salary. The University only accepts online application for the above posts. Applicants should apply online and upload an up-to-date C.V. Review of applications will commence as soon as possible and continue until September 30, 2020 (extended to December 31, 2020), or until the posts are filled, whichever is earlier.

5.	Research Assistant Professor/Post-doctoral Fellow in Epidemiology or Biostatistics
Vacancies:	2
Description:	Applications are invited for appointment as Research Assistant Professor (RAP)/Post-doctoral Fellow (PDF) in Epidemiology or Biostatistics in the School of Public Health (2 posts) (Ref.: 499583), to commence as soon as possible, on a two- to three-year fixed-term basis for RAP, or on a one- to three-year temporary basis for PDF. Applicants should possess a doctoral degree by research (Ph.D., D.Sc., Dr.P.H. or equivalent) in epidemiology, biostatistics, public health or related disciplines. They should have a strong quantitative background; experience in analysing epidemiological data using R, STATA, SAS or other statistical packages; demonstrated expertise in the analysis of large and complex datasets; excellent written and oral communication skills; and the ability to work independently as well as in collaboration with a multidisciplinary team. Proficiency in longitudinal analyses, multilevel modelling, data visualisation, and state-of-the-art statistical and epidemiological models would be an advantage. The appointees will be primarily responsible for applied and methodological work in epidemiological and/or statistical research, and will work with a large population-based cohort with over 46,000 participants in 20,000 households. They will conduct power/sample size estimation; generate tables and figures for reports and presentations; write scientific publications, grant proposals and reports; and assist in general administrative, operational and other duties as assigned. The focus of one of the posts will include The World Health Organization World Mental Health Survey Initiative and the Composite International Diagnostic Interview (CIDI), which is one of the largest cross-national mental health studies in the world. Those with relevant post-doctoral work experience and an excellent publication track record may be considered for appointment as RAP, and the appointee is expected to take up a leading role to oversee the cohort team. Enquiries about the duties of the posts should be sent to Ms. Cynthia Yau at cynthiau@hku.hk. Information about the School can be obtained at http://sph.hku.hk/index.php. Those who have responded to the previous advertisement (Ref.: 498844) need not re-apply A highly competitive salary commensurate with qualifications and experience will be offered, in addition to annual leave and medical benefits. For RAP, the appointment on fixed terms will attract a contract-end gratuity and University contribution to a retirement benefits scheme, totalling up to 15% of basic salary. The University only accepts online applications for the above posts. Applicants should apply online and upload an up-to-date C.V. Review of applications will start as soon as possible and continue until April 30, 2020 (extended to November 30, 2020), or until the posts are filled, whichever is earlier.
